Disclaimer & Limitation of Liability:

All lift kits raise the center of gravity, making the truck less stable in turns, and off camber situation! Thus increasing the chance of roll over! Nisstec Lifts LLC. cannot be held responsible for any damages or personal harm resulting from the installation of this lift kit. You are knowingly modifying the suspension on the vehicle, and accept full responsibility of any changes in handling it may cause. We do not market our products, or instructions as a do-it-yourself kit. We recommend installation of all our products be performed by a Certified Automotive Technician

.
